11	Evaluation	11

List of Figures

Chapter 1

Abstract

Chapter 2

Intro

- 2.1 General information about NTNU and Net-light
- 2.2 General information about project
- 2.3 Contact information on team members
- 2.4 Goals
- 2.5 Planned effort
- 2.6 Schedule of results(Milestones, deliverables, sprint deadlines, etc)

Chapter 3

Project management

3.1 Project plan

3.1.1 Sponsor/customer

3.1.2 Background

3.1.3 Gantt diagram

3.2 Team structure

3.2.1 Roles

3.3 Risks

3.4 Architecture

3.5 Scrum

3.6 Quality Assurance

Chapter 4

Preliminary Study

4.1 Concept

4.2 Constraints

4.2.1 Time

4.2.2 x

4.3 Feasibility study

4.4 Version control

4.4.1 git

4.5 Development language and technologies

4.5.1 Google Drive

4.6 Development Methodology

4.6.1 Scrum

4.6.2 The Waterfall Method

4.7 Code conventions

4.8 Similar solutions

Chapter 5

Requirements

5.1 Usecases/user stories

5.1.1 Planning

5.2 Sequence Diagrams

5.3 Prioritization

5.4 Functional Requirements

5.5 Nonfunctional Requirements

5.6 Test Plan

Chapter 6

Overall System Design

6.1 Database

6.2 GUI

Chapter 7

Sprints

7.1 Design

7.2 Planning

7.3 Duration

7.4 Goals

7.5 Testing

Chapter 8

Testing

Chapter 9

Conclusion

Chapter 10

Evaluation
